

SANGEETH.T

UI/UX DESIGNER , UX RESEARCHER

PROJECT EXPERIENCE

Logistics Mobile App

Streamlined logistics mobile app designed to optimize delivery operations, enhance tracking, and improve user experience. This mobile app is designed to make delivery operations smoother and more efficient for drivers and coordinators. With a clean, intuitive interface, it's built to handle logistics tasks with ease.

E-commerce website

Designed a user centrist e-commerce website with seamless navigation, optimized performance, and a visually engaging shopping experience. MarhabaMall.qa is an online e-commerce platform based in Qatar, specializing in the sale of smartphones and accessories from brands like Apple, Samsung, Xiaomi, and more.

Rachana Books / story app

Rachana is a platform for writers and readers, providing a space for authors to publish their work and for users to explore and enjoy a diverse range of stories, novels, and articles in multiple languages.
